

Bermuda

by Camille Pepe Sperrazza

Bermuda's "big city" is Hamilton, and one of the top hotels is the Fairmont Hamilton Princess.

Although it is located in the city, some rooms face the marina, providing beautiful water views. There is an infinity pool on the premises so you can bask in the Bermuda sunshine. The hotel is not located on the beach, but its sister resort, the Fairmont Southampton is, and complimentary ferry service is offered between the hotels.

The resort is within walking distance of many shops and restaurants, as well as the ferry which you can take to take to other parts of Bermuda- - West End and St. George (about \$4.50 each way).

There are also shops and several restaurants on the premises, including Heritage Court which is noted for its grand High Tea.
